

PROFESSIONAL HOTEL BED

5-PRO R SPRING

Product specification:

- A solid spruce frame reinforced with beech beams, featuring a flexible system on the lying surface, which is covered with a non-slip fabric. To soften the contact surface, the lying surface is lined with PUR foam, and the sides are padded with fleece.
- The bed is characterised by its rounded corners.
- Option to choose gliders for easier handling.
- Load capacity up to 140 kg.
- 5-year warranty.

Technical parameters:

- material: solid spruce construction
- upholstery fabrics according to the current offer in three price categories
- bed frame filling: pocket spring, height 14 cm, wire diameter 2.0 mm
- bed length: 200 cm
- bed width: 100 cm
- total bed height: 36 cm, side height 30 cm
- option to connect individual beds with fittings
